

capsulecaddy™

## Big solutions in small packages

The perfect quantity for small clinical trials and R&D projects.

### Capsule Caddy™ Container

Filled with Coni-Snap®, Licaps®, Vcaps Plus®, Vcaps®, Coni-Snap® Sprinkle, All Color or DBcaps® capsules.

Capsugel's innovative Capsule Caddy™ Container is the perfect size container for clinical trial batches, R&D projects, or small manufacturing runs – any environment where space is at a premium and a resealable lid is an invaluable convenience. The Capsule Caddy™ Container is made from 100% recyclable, high-density polyethylene to protect capsules from the degradations of light and moisture. Each lot and contents are clearly identified on the top and side. Caddies are filled with capsules in the most popular sizes and colors, and capsule count ranges depending on capsule size.

Dimensions: 11-15/16" L x 9-7/8" W x 14-11/16" H

### DBcaps® Capsules Small Box

Filled with DBcaps® capsules.

For smaller double blind trials, Capsugel's DBcaps® Capsules Small Box is the perfect solution. The DBcaps® Capsules Small Box gives you the option to purchase smaller quantities that best meet your specific needs. DBcaps® capsules are available in an array of globally accepted colors, and can be shipped to you within 1 to 3 business days. Each lot and contents are clearly identified on the side of the box. Capsule counts range depending on size.

Dimensions: 12" L x 9-15/16" W x 9-3/4" H

## Choose from a variety of capsules to fill your Capsule Caddy™ Container

**Coni-Snap® Capsules** – the industry standard for two-piece gelatin capsules that work on virtually every filling machine, including Xcelodose® 120 S, Xcelodose® 600 S and Xcelolab®.

**Licaps® Capsules** – specially designed for the containment of liquids or semi-solids using CFS 1200™ or CFS 1500 C™ filling machines.

**Vcaps Plus® Capsules** – vegetarian capsules with a high-gloss appearance and gelatin-like filling performance produced without the use of gelling agents. DPI-grade available.

**Vcaps® Capsules** – plant-based capsules with a natural, textured surface appearance. DPI-grade available and great for moisture sensitive compounds.

**Coni-Snap® Sprinkle Capsules** – two-piece gelatin or HPMC capsules designed for easy opening to sprinkle contents on foods or beverages.

**All Color Capsules** – Capsugel's All Color Capsules allow you to start your stability testing before making a final capsule color choice. FD&C and Iron Oxide options provide 18 color extracts for choice of final marketing colors. Each capsule is printed with two colors of ink.

**DBcaps® Capsules** – Developed specifically for double-blind clinical trials.
