

## CFS 1200 System Customer Testimonials

"My team and I would like to thank the Capsugel team for the quality meeting and hospitality. We really appreciate the organisation and professionalism of the Capsugel team. We have been very impressed by the equipment of the plant, and the technology ... there is a good opportunity for such a technology in many therapeutic areas."

"I would like to say thank you to Capsugel on behalf of the whole team for the support in all technical as well as practical questions with regard to liquid filling of capsules on the CFS 1200 system. We found it a very fruitful cooperation up to now and I'm sure that we will follow up in 2009 in the same manner. As I said, we definitely will come back to you at the beginning of next year after the first experiences with the CFS 1200 system and our active formulations."

"Thank you very much for having handled this matter with urgency; that was really well done!"

*Top 10 multinational Pharmaceutical company*

---

"We were very impressed with the equipment we saw, which led in the end to a successful FAT. We realized especially the tremendous effort Philippe and his team put into the project - with this professional and passionate team I am sure we will keep the tough timelines!"

“Many thanks for your assistance yesterday in dealing with our CFS1200 filling problem. After making the changes as advised the equipment ran without error. We have further clinical batches to manufacture next week which are larger than that manufacture. I'm the process of organizing full training for myself and a few others including an engineer, hopefully this will help us to self diagnose any future issues. Excellent service!”
