

Capsule Caddy Container

Small polyethylene container for DBcaps® capsules

Capsugel's Most Convenient Container

Capsugel's Capsule Caddy is a container for DBcaps® capsules storage when space is at a premium and a convenient resealable lid is required. It is the perfect size for your clinical batches, your R&D projects or small manufacturing runs.

- Hermetically sealed container provides protection from light and moisture
- Sealed lid is easy to open and close
- Caddy with Certificate of Analysis
- Easy to store, stackable container
- Caddy holds optimum quantity of capsules
- Plastic bag protects capsules from contamination
- Caddy is identified with capsule description
- High-density polyethylene is 100% recyclable
